

Performance Under Pressure

PARTS LIST FOR
HGM 3506
HEATER MODULE
(AFTER SERIAL # 15011352)

This Parts Listing has been compiled for your benefit. You can be assured your hot water heater module was constructed and designed with quality and performance in mind. Each component has been rigorously tested to insure the highest level of acceptance.

The contents of this Parts Listing are based on the latest product information available at the time of publication. The manufacturer reserves the right to make changes in price, color, materials, equipment, specifications or models at any time without notice.

WARNING
**THIS IS A PROFESSIONAL HOT WATER HEATER MODULE. CAUTION SHOULD BE OBSERVED WHEN
INSTALLING, USING OR REPAIRING THIS UNIT! READ AND FOLLOW THE SAFETY WARNINGS BEFORE ATTEMPTING ANY REPAIRS
ON THIS HEATER MODULE!**

1.

NEVER alter or modify the equipment. Use only genuine manufacturer parts for repair of your heater module. Failure to do so can cause hazardous operating conditions and will VOID warranty. Repairs performed on this heater module should be done by a qualified serviceman in accordance with local, state and national regulations.
2.

This unit has multiple safety devices which should never be altered, modified, removed or made inoperable. If a device fails, replace immediately with only genuine manufacturer replacement parts.
3.

Gas System:
Do not operate unit if gas smell exists. If you smell gas at any time, immediately shut off the gas supply to the unit and extinguish any open flame. L.P. gas is heavier than air and will gravitate to the floor. Do not resume operation until unit has been repaired and inspected by a qualified serviceperson.
4.

Electrical System:
The unit must be connected to a properly grounded electrical source which provides the correct voltage and adequate fuse protection. Disconnect from power source when making repairs. Never assume the heater module is safe to work on just because it is not operating. It could restart at any time.

Never operate heater module with electrical enclosures open, removed or damaged. Do not allow metal components of the pressure washer to come in contact with live electrical components.
5.

Do not operate the unit without all protective covers in place. Before servicing the unit, always shut off the unit and trigger the gun to release trapped pressure. Know how to stop the heater module and bleed pressures quickly. Be thoroughly familiar with controls. Be sure any accessory items and system components being used will withstand the pressure developed.

SPECIFICATIONS

MODEL NUMBER	HGM-3506-0E10
Operating Pressure (PSI/Bar):	3500/241
Water Volume (GPM/lpm):	6.0/22.5
Burner	Natural Draft-Aspirating
Fuel Type	Natural Gas
Maximum Supply Pressure (W.C.)	13.0
Manifold Pressure (W.C.)	4.0
Fuel Orifice Size	#53
Fuel Type	L.P.-Gas (Vapor Only)
Maximum Supply Pressure (W.C.)	13.0
Manifold Pressure (W.C.)	9.5
Fuel Orifice Size	#64
Heat Exchanger:	
Natural Gas BTU Input	338,000
L.P. BTU Input	326,000
Electric Controls:	
Burner Controls	Rocker Switch
Control Voltage	24 Volt AC
Safety Devices:	
Thermostat	Adjustable
Relief Valve	Relieves Excessive System Pressure
Unit Net Weight (Lbs/kg):	346/157
Unit Shipping Weight (Lbs/kg):	466/211
Unit Net Dimension (In/cm):	24.25L x 26.25W x 49.75H/143.5L x 73.5W x 126.5H
Unit Shipping Dimension (In/cm):	57.5L x 35.5W x 59.5H/146L x 90W x 151H

DECAL PLACEMENT
